

compensation is provided solely for the flight training and not the use of the aircraft.

The FAA notes that any operator of a limited category aircraft that holds an exemption to conduct Living History of Flight (LHFE) operations already holds the necessary exemption relief to conduct flight training for its flightcrew members. LHFE exemptions grant relief to the extent necessary to allow the exemption holder to operate certain aircraft for the purpose of carrying persons for compensation or hire for living history flight experiences. As a condition of these exemptions, the operators must provide regular flight training and checking to flightcrew members. As such, these flight training operations are considered necessary for the operator to conduct the LHFE flights themselves.⁹ The FAA will clarify this relief when operators apply for renewal of their LHFE exemptions.

For the safety reasons set forth in this notification, the FAA is considering a rulemaking that would enable the flight training activity discussed in this notification without the need to obtain an exemption or LODA from the FAA.

Addition of Certain Entities to the Entity List; Revision of Existing Entry on the Entity List; Removal of Entity From the Unverified List; and Addition of Entity to the Military End-User (MEU) List

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: This final rule amends the Export Administration Regulations (EAR) by adding thirty-four entities

⁹ The FAA cautions, however, that LHFE exemptions do not permit operators to allow passengers on LHFE flights to manipulate the controls of the aircraft under the guise of flight training. The flight training relief extends only to the LHFE operator's own flightcrew members for the purpose of training those individuals to conduct LHFE flights.

under forty-three entries to the Entity List. These thirty-four entities have been determined by the U.S. Government to be acting contrary to the foreign policy interests of the United States and will be listed on the Entity List under the destinations of Canada; People's Republic of China (China); Iran; Lebanon; Netherlands (The Netherlands); Pakistan; Russia; Singapore; South Korea; Taiwan; Turkey; the United Arab Emirates (UAE); and the United Kingdom. This final rule also revises one entry on the Entity List under the destination of China. This final rule also removes one entry from the Entity List under the destination of Germany. This final rule removes one entity from the Unverified List, as a conforming change to this same entity being added to the Entity List. In addition, this final rule amends the EAR by adding one entity to the Military End-User (MEU) List under the destination of Russia.

DATES: This rule is effective July 12, 2021.

SUPPLEMENTARY INFORMATION:

Background

The Entity List (supplement no. 4 to part 744 of the EAR) identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States. The EAR (15 CFR parts 730-774) impose additional license requirements on, and limit the availability of most license exceptions for, exports, reexports, and transfers (in-country) to listed entities. The license review policy for each listed entity is identified in the "License Review Policy" column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** document adding entities to the Entity List. BIS places entities on the Entity List pursuant to part 744 (Control Policy: End-User and End-Use Based) and part 746 (Embargoes and Other Special Controls) of the EAR.

The 'Military End-User' (MEU) List (supplement no. 7 to part 744 of the EAR) identifies entities that have been determined by the End-User Review

Committee (ERC) to be 'military end users' pursuant to § 744.21 of the EAR. That section imposes additional license requirements on, and limits the availability of, most license exceptions for, exports, reexports, and transfers (in-country) to listed entities on the MEU List, as specified in supplement no. 7 to part 744 and § 744.21 of the EAR. Entities may be listed on the MEU List under the destinations of Burma, China, Russia, or Venezuela. The license review policy for each listed entity is identified in the introductory text of supplement no. 7 to part 744 and in § 744.21(b) and (e). The MEU List includes introductory text, which specifies the scope of the license requirements, limitations on the use of EAR license exceptions, and the license review policy that applies to the entities. These requirements are also reflected in § 744.21, but for ease of reference, these are also included in the introductory text of the supplement.

The Unverified List, found in supplement no. 6 to part 744 of the EAR, contains the names and addresses of foreign persons who are or have been parties to a transaction, as such parties are described in § 748.5 of the EAR, involving the export, reexport, or transfer (in-country) of items subject to the EAR, and whose bona fides BIS has been unable to verify through an end-use check. BIS may add persons to the Unverified List when BIS or federal officials acting on BIS's behalf have been unable to verify a foreign person's bona fides because an end-use check, such as a pre-license check or a post-shipment verification, cannot be completed satisfactorily for reasons outside the U.S. Government's control.

The ERC, composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List and MEU List. The ERC makes all decisions to add an entry to the Entity List and MEU List by majority vote and makes all decisions to remove or modify an entry by unanimous vote. In addition, when an entity listed on the Unverified List is being added to the Entity List based on a majority vote of the ERC, the ERC's determination to add that entity to the Entity List constitutes interagency approval for a conforming change to remove the same entity from the Unverified List in supplement no. 6 to part 744 of the EAR.

ERC Entity List Decisions*Additions to the Entity List*

This rule implements the decision of the ERC to add thirty-four entities under forty-three entries to the Entity List. The thirty-four entities are added based on § 744.11 (License requirements that apply to entities acting contrary to the national security or foreign policy interests of the United States) of the EAR. The thirty-four entities are located in Canada; China; Iran; Lebanon; the Netherlands; Pakistan; Russia; Singapore; South Korea; Taiwan; Turkey; the UAE; and the United Kingdom. Of the forty-three entries, two are located in Canada, twenty-three are located in China, two are located in Iran, two are located in Lebanon, one is located in the Netherlands, one is located in Pakistan, six are located in Russia, one is located in Singapore, one is located in South Korea, one is located in Taiwan, one is located in Turkey, one is located in the UAE, and one is located in the United Kingdom. Five entities are listed under multiple destinations, accounting for the difference between the number of entities and number of entries in this final rule.

The ERC determined to add Karim Daadaa; Modern Agropharmaceuticals & Trade Establishment; Payam Nabavi; and Sina Biomedical Chemistry Company to the Entity List for engaging in conduct contrary to the national security and foreign policy interests of the United States. Specifically, the ERC determined that there is reasonable cause to believe, based on specific and articulable facts, that these entities facilitated the export of U.S. items to Iran in violation of the EAR.

The ERC determined to add China Academy of Electronics and Information Technology; Xinjiang Lianhai Chuangzhi Information Technology Co., Ltd.; Leon Technology Co., Ltd.; Xinjiang Tangli Technology Co., Ltd.; Shenzhen Cobber Information Technology Co., Ltd.; Xinjiang Sailing Information Technology Co., Ltd.; Beijing Geling Shentong Information Technology Co., Ltd.; Tongfang R.I.A. Co., Ltd.; Shenzhen Hua'antai Intelligent Technology Co., Ltd.; Chengdu Xiwu Security System Alliance Co., Ltd.; Beijing Sinonet Science & Technology Co., Ltd.; Urumqi Tianyao Weiye Information Technology Service Co., Ltd.; Suzhou Keda Technology Co., Ltd.; and Xinjiang Beidou Tongchuang Information Technology Co., Ltd. to the Entity List for enabling activities contrary to the foreign policy interests of the United States. Specifically, these entities have been implicated in human rights

violations and abuses in the implementation of China's campaign of repression, mass detention, and high-technology surveillance against Uyghurs, Kazakhs, and other members of Muslim minority groups in the Xinjiang Uyghur Autonomous Region (XUAR).

The ERC determined to add Hangzhou Hualan Microelectronics Co., Ltd. and Kyland Technology Co., Ltd.; along with Kyland subsidiaries Armyfly and Kindroid, for activities contrary to the national security and foreign policy of the United States. Specifically, the ERC determined that these entities are acquiring and are attempting to acquire U.S.-origin items in support of military modernization for the People's Liberation Army.

The ERC determined to add Wuhan Raycus Fiber Laser Technologies Co., Ltd. to the Entity List for engaging in conduct that poses a risk of violating the EAR. Specifically, the ERC determined this entity has potentially been involved in the procurement of U.S.-origin items for unauthorized military end-use.

The ERC determined to add Beijing Hileed Solutions Co., Ltd.; Beijing E-Science Co., Ltd.; Info Rank Technologies; and Wingel Zhang to the Entity List for exporting and attempting to export items subject to the EAR to an entity on the U.S. Department of the Treasury's Office of Foreign Asset Control Specially-Designated Nationals List without the necessary licenses.

The ERC determined to add OOO Teson; the Radiant Group of Companies; OOO Trade-Component; and the three associated individuals, Andrey Leonidovich Kuznetsov, Margarita Vasilyevna Kuznetsova, and Dmitry Alexandrovich Kravchenko, on the basis of their attempts to procure items, including U.S.-origin items, for activities contrary to the national security and foreign policy interests of the United States. Specifically, OOO Teson, the Radiant Group of Companies, and OOO Trade-Component are involved in the procurement of U.S.-origin electronic components likely in furtherance of Russian military programs.

The ERC determined that TEM International FZC is involved in proliferation to unsafeguarded nuclear activities that are contrary to the national security and/or foreign policy interests of the United States.

License Review Policy

For one entity—TEM International FZC—BIS imposes the license review policy set forth in § 744.2(d) (restrictions on certain nuclear end-uses) of the EAR for all items subject to

the EAR. For thirteen of the thirty-four entities, which constitute thirteen of the fourteen XUAR-related entities, added to the Entity List by this rule, China Academy of Electronics and Information Technology; Xinjiang Lianhai Chuangzhi Information Technology Co. Ltd.; Leon Technology Co. Ltd.; Xinjiang Tangli Technology Co. Ltd.; Shenzhen Cobber Information Technology Co. Ltd.; Xinjiang Sailing Information Technology Co. Ltd.; Beijing Geling Shentong Information Technology Co. Ltd.; Tongfang R.I.A. Co. Ltd.; Shenzhen Hua'antai Intelligent Technology Co. Ltd.; Chengdu Xiwu Security System Alliance Co. Ltd.; Beijing Sinonet Science & Technology Co. Ltd.; Urumqi Tianyao Weiye Information Technology Service Co. Ltd.; and Xinjiang Beidou Tongchuang Information Technology Co. Ltd., BIS imposes a license review policy of case-by-case review for Export Control Classification Numbers (ECCNs) 1A004.c, 1A004.d, 1A995, 1A999.a, 1D003, 2A983, 2D983, and 2E983, for EAR99 items described in the Note to ECCN 1A995, and for items necessary to detect, identify, and treat infectious disease, with a presumption of denial for all other items subject to the EAR. For one of the fourteen XUAR-related entities, Suzhou Keda Technology Co., Ltd., added to the Entity List by this rule, BIS imposes a license requirement for all items subject to the EAR and a license review policy of presumption of denial for all items subject to the EAR, given this entity's additional relationship with military end-users. For the remaining eighteen of the thirty-four entities described above that are being added to the Entity List, BIS imposes a license requirement for all items subject to the EAR and a license review policy of presumption of denial for all items subject to the EAR.

For all thirty-four entities, the license requirements apply to any transaction in which items are to be exported, reexported, or transferred (in country) to any of the entities or in which such entities act as purchaser, intermediate consignee, ultimate consignee, or end user. In addition, no license exceptions are available for exports, reexports, or transfers (in-country) to the entities being added to the Entity List in this rule. The acronym "a.k.a.," which is an abbreviation of 'also known as' is used in entries on the Entity List to identify aliases, thereby assisting exporters, reexporters, and transferors in identifying entities on the Entity List.

For the reasons described above, this final rule adds the following thirty-four entities under forty-three entries to the Entity List and includes, where appropriate, aliases:

Removals From the Entity List

This rule implements a decision of the ERC to remove "Maintenance Services International (MSI) GmbH," one entity located in Germany, from the Entity List, on the basis of a removal request. The entry for Maintenance Services International (MSI) GmbH was added to the Entity List on December 22, 2020 (85 FR 83416). The ERC decided to remove this entry based on information BIS received pursuant to § 744.16 of the EAR, and the review the ERC conducted in accordance with procedures described in supplement No. 5 to part 744 of the EAR.

This final rule implements the decision to remove the following entity, located in Germany, from the Entity List:

Germany

- Maintenance Services International (MSI) GmbH.

Revision to the Entity List

The ERC agreed to revise the existing entry for "Kuang-Chi Group," added to the Entity List under the destination of China on December 22, 2020 (85 FR 83416). This revision will remove Guangqi Science Co., Ltd. as an alias for Kuang-Chi Group. The ERC decided to modify this entry to reflect the entity's correct organizational structure.

ERC Unverified List Decisions*Removal From Unverified List as a Conforming Change for an Addition to the Entity List*

This rule removes "TEM International FZC," an entity located in the UAE, from the Unverified List in supplement no. 6 to part 744 of the EAR. The entry for TEM International FZC was added to the Unverified List on May 17, 2018 (83 FR 22842). BIS is removing the entry for TEM International FZC from the Unverified List because of the ERC determination to add this same entity to the Entity List, as described above. This final rule, as a conforming change to the

addition of TEM International FZC to the Entity List, removes TEM International FZC from the Unverified List in supplement no. 6 to part 744. The EAR does not prohibit the listing of entities on the Unverified List and Entity List at the same time. However, as a matter of policy, BIS intends to remove any entity from the Unverified List when the ERC makes a determination that the same entity warrants being included on the more restrictive Entity List. In order to ensure there is no gap in coverage between these two EAR lists, the addition of an entity to the Entity List and the removal from the Unverified List will occur in the same rule whenever this scenario occurs.

ERC MEU List Decisions*Addition to the MEU List*

Under § 744.21(b) of the EAR, BIS may inform persons either individually by specific notice, through amendment to the EAR published in the **Federal Register**, or through a separate notice published in the **Federal Register**, that a license is required for specific exports, reexports, or transfers (in-country) of any item because there is an unacceptable risk of use in or diversion to a 'military end use' or 'military end user' in Burma, China, Russia, or Venezuela. Under § 744.21(b)(1) of the EAR, BIS may designate entities subject to this additional prohibition under paragraph (b) that have been determined by the ERC to be a 'military end user' pursuant to § 744.21. These entities will be added to supplement no. 7 to part 744 ('Military End-User' (MEU) List) in **Federal Register** notices published by BIS.

This rule implements the decision of the ERC to add one entity to the MEU List. This entity will be listed on the MEU List under the destination of Russia. The ERC made the decision to add this entity under the standard set forth in § 744.21 of the EAR, including the criteria for what constitutes a 'military end use' under paragraph (f) and 'military end user' under paragraph (g).

The license requirement for this entity applies to the export, reexport, or transfer (in-country) of any item subject to the EAR listed in supplement no. 2 to part 744. For this entity added to the MEU List by this rule, BIS imposes a license review policy of a presumption of denial as set forth in § 744.21(e) of the EAR.

No license exceptions are available for exports, reexports, or transfers (in-country) to listed entities on the MEU List for items specified in supplement

no. 2 to part 744, except license exceptions for items authorized under the provisions of License Exception GOV set forth in § 740.11(b)(2)(i) and (ii) of the EAR.

The acronym “a.k.a.,” which is an abbreviation of ‘also known as,’ is used in entries on the MEU List to identify aliases, thereby assisting exporters, reexporters, and transferors in identifying entities on the MEU List.

For the reasons described above, this final rule adds the following one entity to the MEU List:

Russia

- JSC Kazan Helicopter Plant Repair Service.

Savings Clause

Shipments of items removed from eligibility for a License Exception or for export, reexport, or transfer (in-country) without a license (NLR) as a result of this regulatory action that were en route aboard a carrier to a port of export, reexport, or transfer (in-country) on July 12, 2021, pursuant to actual orders for export or reexport to a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR).

Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (50 U.S.C. 4801–4852). ECRA provides the legal basis for BIS’s principal authorities and serves as the authority under which BIS issues this rule.

Rulemaking Requirements

1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has been determined to be not significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to or be subject to a penalty for failure to comply with a collection

of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by OMB under control number 0694–0088, Simplified Network Application Processing System, which includes, among other things, license applications and commodity classification, and carries a burden estimate of 29.6 minutes for a manual or electronic submission. Total burden hours associated with the PRA and OMB control number 0694–0088 are not expected to increase as a result of this rule.

3. This rule does not contain policies with federalism implications as that term is defined in Executive Order 13132.

4. Pursuant to section 1762 of the Export Control Reform Act of 2018, this action is exempt from the Administrative Procedure Act (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date.

5. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, are not applicable. Accordingly, no regulatory flexibility analysis is required, and none has been prepared.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 18, 2020, the Food and Drug Administration (FDA or Agency) issued a final rule establishing new cigarette health warnings for cigarette packages and advertisements. The final rule implements a provision of the Family Smoking Prevention and Tobacco Control Act (Tobacco Control Act) (Pub. L. 111–31) that requires FDA to issue regulations requiring color graphics depicting the negative health consequences of smoking to accompany new textual warning label statements. The Tobacco Control Act amends the Federal Cigarette Labeling and Advertising Act of 1965 (Pub. L. 89–92) to require each cigarette package and advertisement to bear one of the new required warnings. The final rule specifies the 11 new textual warning label statements and accompanying
